# Workshop on International Financial Reporting Standards for Small and Medium-sized Entities (IFRS for SMEs) & Tax Issues Relevant to SMEs

The IFRS for SMEs has finally been issued by the International Accounting Standards Board (IASB).

This two-day seminar will introduce the newly issued separate standard that should be observed in the preparation of the financial statements of small and medium-sized entities (e.g., simplified *principles for recognizing and measuring assets, liabilities, income and expenses, required disclosures, omitted topics in full IFRS, etc.*)

The seminars will discuss in details the specific accounting policies for the different business activities and transactions of the SMEs. Guidelines in the transition implementation will also be discussed.

**As a bonus, two hours will be allotted for the discussion of common tax issues of SMEs.**
